

Policy on Environment

We recognize global environmental conservation to be the most important issue for our survival, constantly work to improve our environmental performance as citizens of the earth and envision to be trusted by our customers.

1. We continue to conduct energy saving and waste reducing activities to promote efficient use of natural resources.
2. We conduct environmental conservation so that future generations can use limited natural resources.
3. We appropriately control and reduce substances produced from our business operations that may contaminate living things, water, or air.
4. We reduce the emission of greenhouse gases to contribute to the countermeasures against global warming.
5. We comply with applicable laws and regulations as well as our own management standards.
6. We continuously conduct educational activities to accomplish the efforts mentioned above which are required for realization of a sustainable society.
